## 1. Purpose

NSFAS requires the services suitable service providers (NSFAS has the right to appoint more than 1 service provider) that specialises in the verification, validation of income earned by the applicant parents / guardian and assessment of applicant information that may be provided. NSFAS will provide the service providers with the key applicant information which includes the ID numbers of the applicant and the parents/guardian, following which the service providers would be required to provide to NSFAS the following information per applicant and parents/guardian:

- 1.1 Verification and validation of the actual monthly/annual income (provisional estimates of income will need to be assessed for those employed in the formal sector or self-employed) of the applicant and parents/guardian. The sources of information utilised (Credit Bureau, SARS and UIF), the assumptions applied, and the model that is used to estimate the monthly/annual income for the parents/guardians. SARS maintains a tax filing threshold, and the UIF data possibly covers a larger demographic given that lower non -tax filing thresholds data can be reached. UIF data is a percentage of the overall income and could provide an assessment to income amounts.

## 2. Background

NSFAS provides financial assistance to eligible students at Public Universities and at Technical Vocational Education and Training (TVET) colleges throughout South Africa with its head office based in Wynberg, Cape Town.

The organisation is in the process of rolling out an operating model to its bursaries recipients for the 2018 Academic year. Under this operating model, prospective students will apply for financial assistance directly to NSFAS, and NSFAS will manage the entire process from the point of application including the assessment of the applicant's means, to the origination of bursaries agreements, and the disbursement of tuition fees and allowances.
