1. Purpose

NSFAS's ICT Server and Storage infrastructure has reached its end of life and is also nearing maximum capacity. Additionally, the Disaster Recovery solution needs to be refreshed in order to ensure business continuity in the event of an infrastructure outage or a disaster at the production hosting site.

The infrastructure replacement will be based on a private cloud model using hyper converged infrastructure technology and hosted within the NSFAS data centre. The current virtualized environment needs to be migrated to the new solution.

The disaster recovery will be a managed solution whereby NSFAS replicates its data offsite and the service provider manages the solution and provides the software to generate reports, alerts and provide DR testing capability.

2. Background

The National Student Financial Aid Scheme (NSFAS) provides financial assistance to eligible students, through its Bursary Scheme which it administers on behalf of the Department for Higher Education, Science and Technology, in order for its beneficiaries to pursue their selected course of studies at any Public Universities and Technical Vocational Education and Training (TVET) colleges throughout South Africa.
